2022 - 2022

##### SStartup 2022 - Phenikaa University

- DIA-CARE Project (Diabetes Monitoring): Reached the quarterfinals.

## PROJECTS

---

### DEVELOPER AND DESIGNER

**Timedle Game - Timedle.com**

**4/2024 - 5/2024**

Client Individual

Participants 2

#### Technology description

Next.js (front-end), Node.js (back-end), MySQL (database)

#### Role

- Designed a smooth and user-friendly interface. Optimized the database and developed key features for the product.
- Fine-tuned the application's speed and performance, ensuring scalability.
- Conducted comprehensive testing before the market launch and successfully deployed the product.

### DEVELOPER

**Personal Profile - congpham.info**

**7/2024 - 8/2024**

Client Individual

Participants 1

#### Technology description

Next.js (front-end)

#### Role

- Designed a modern and user-friendly website interface.
- Built a multi-language website, optimized speed, and display performance.
- Successfully deployed the product, ensuring security and stability.

### DEVELOPER

**Histordle Game - Histordle.com**

**4/2024 - 5/2024**

Client Business

Participants 2

#### Technology description

HTML5, CSS3, PHP, MySQL

#### Role

- Optimized the website interface and user experience.
- Enhanced performance and improved the database system using MySQL.
- Built and deployed diverse features for the website, ensuring performance and security.
